WE WORK ON PRODUCTS,
NOT ON PROJECTS.

PROJECT vs PRODUCT

PROJECT

Break Down Effort

Requirement is broken down into smaller chunks. Focus is on getting things done

One & Done

One-time phases are grouped and executed with clear start and stop dates

Inward Focus

The focus is on Solution/ System – how to build, what to work on etc.

Follow the plan

Mantra is "On time. On budget, on scope"

PRODUCT

Build Up Value

Build a Minimum Viable Product. Make changes in Phases. Focus is on building value

Ongoing Evolution

Continuous and Incremental loops of Plan-Do-Check-Act

Customer Focus

The focus is on the Customer – what to deliver and why?

Deliver Value

The sweet spot is at the cross section of: Feasible, Valuable and Desirable

WE OFFER YOU PRE-ENGINEERED BUILDING BLOCKS TO ACCELERATE YOUR PRODUCT DEVELOPMENT

LAUNCH YOUR NEXT PRODUCT FASTER WITH OUR FRAMEWORKS, APIS AND INTEGRATION

Experience APIs
(Purpose-built APIs for apps)

Process APIs
(Orchestration, Composable APIs, microservices)

System APIs
(Legacy modernization, connectivity to SaaS apps, web services & Restful APIs)

Saas apps | Mainframe | FTP, Files | Databases | Web Services | Legacy Systems | Applications

is what sums up Codelattice Culture

FROM OUR CLIENTS

The team at Codelattice has been excellent to work with; they tackled all the issues on a difficult and complex project. It has been a pleasure to work with Anto and his team

Meenakshi Khanchandani

Regional Market Research Manager

British Council, UAE

We have been a customer of Codelattice for multiple years and are very pleased with their services. They excel in all aspects of their business. We would strongly recommend Vijith and his team at Codelattice to any company looking for strong technical ability that comes attached with a very high level of customer service

Focusing R & D

OUR STORY

**Started in 2009
by 3 young aspirants**

Seeking a sense of
wonder & pride in what they do

**Started off primarily as
IT Service Company**

For Digital Marketing &
Web Development

**Worked with
several fortune 500 Brands**

As a premium digital partner
for their marketing needs

**Now our focus
is on Home grown
intellectual Properties**

Such as Customisable
Digital Solutions & Products

**We are a People
Centric Company**

With openness to learning,
experimenting and building

> " We built an array of Solutions and Products, pursuing the joy of innovation and the fulfilment in excelling. We will continue refining and enhancing our work and would be looking for avenues for the development of customer-centric solutions in future as well. I am grateful to my team, business partners & clients for their phenomenal contribution to the growth of Codelattice. "
